

## HEALTHCARE

### Non-European Union Students

Those students coming from non-EU countries without a mutual [agreement](#) with Spain about health coverage must subscribe a **private health insurance** with an insurer entitled to operate in Spain.

The contracted insurance must be an illness and accident insurance without deficiencies or co-payments with medical (outpatient and hospital) and pharmaceutical coverage and without restrictions regarding medical specialities. Furthermore, it is required unlimited coverage for repatriation and evacuation of the wounded or sick and repatriation or transportation of the deceased insured.

**Health coverage** must be guaranteed during the **whole stay in Spain**.

*\*Before travelling to Spain we recommend you to contact your insurance company to find doctors in your network who take health coverage in Spain (Pamplona) and keep their names and address handy, just in case.*
