

Call for the interview to the 6 candidates who have obtained the highest score in the sum of the rest of the sections

Open call for two PhD positions at Universidad Pública de Navarra on "Advanced Technologies for future European Satellite Applications" (TESLA), funded by the European Commission as an MSCA-ITN action within the Horizon 2020 programme, approved by Decision 107/2019, adopted on the 23rd of January by the Rector of Universidad Pública de Navarra

Once expired the deadline for the presentation of claims to the provisional evaluation of the applications prior to interview by the Call Evaluation Committee, as established in section 12.4. of the Call, the 6 candidates who have obtained the highest score in the sum of the rest of the sections are summoned to carry out the aforementioned interview:

1. Abdul, Sami
2. Jabir, Hussain
3. Shobit, Agarwal
4. Sazid, Mohd
5. Rouhi, Kasra
6. Mehrabi Gohari, Mohammad

The Call Evaluation Committee will contact the 6 candidates referred by e-mail, to arrange a date, hour and means for the realization of the Interview.

Pamplona, 9 April 2019

Professor Dr. Miguel A. Gómez-Laso.
Researcher responsible for the TESLA project
