

APPLICANTS' PROVISIONAL ASSESSMENT PRIOR TO THE CONDUCT OF THE INTERVIEW

Open call for two PhD positions at Universidad Pública de Navarra on "Advanced Technologies for future European Satellite Applications" (TESLA), funded by the European Commission as an MSCA-ITN action within the Horizon 2020 program, approved by Decision 107/2019, adopted on the 23rd of January by the Rector of Universidad Pública de Navarra

Once completed the evaluation of the applications that appear in the definitive list of applications admitted and excluded, the Call Evaluation Committee, after verification that the applicants meet the general requirements to be admitted to this call for they are in possession of the prior studies enabling them to access the Doctoral Program in Communications Technology, Bioengineering and Renewable Energy of the Public University of Navarra, publishes the **provisional assessment of the applications prior to the realization of the Interview** by the Call Evaluation Committee, as established in section 12.4. of the Call, and detailed in Annex I.

A deadline is set from 00:00 hours (UTC / GMT + 1) of 2nd April 2019 to 24:00 hours (UTC / GMT + 1) of 8th April 2019, so that interested parties can present the allegations corresponding to this provisional assessment, and can do so by sending an email to the following e-mail address: recruitment.research@unavarra.es

Pamplona, 1st April 2019

Professor D. Miguel A. Gómez-Laso.
Researcher in charge for the TESLA project

Annex I

Open call for two PhD positions at Universidad Pública de Navarra on "Advanced Technologies for future European Satellite Applications" (TESLA), funded by the European Commission as an MSCA-ITN action within the Horizon 2020 program, approved by Decision 107/2019, adopted on the 23rd of January by the Rector of Universidad Pública de Navarra
