

PROVISIONAL LIST OF SELECTED APPLICANTS

Open call for two PhD positions at Universidad Pública de Navarra on "Advanced Technologies for future European Satellite Applications" (TESLA), funded by the European Commission as an MSCA-ITN action within the Horizon 2020 programme, approved by Decision 107/2019, adopted on the 23rd of January by the Rector of Universidad Pública de Navarra

Once the interviews to the 6 candidates who have obtained the highest score in the sum of the rest of the selection criteria have been done, and with that, the whole evaluation of the applications has been completed, as established in section 12.4. of the Call, the **provisional list of selected applicants** is now published.

In this list, all the applications definitively admitted to the evaluation process are listed, sorted from the highest to the lowest score, together with the points awarded in each of the selection criteria included in Annex II of the Call. Only the two first candidates with the highest scores are the candidates provisionally selected for the two PhD positions.

A deadline is set from the 00:00 hours (UTC / GMT + 1) of May 23rd, 2019, to the 24:00 hours (UTC / GMT + 1) of May 29th, 2019, so that interested parties can present the allegations corresponding to this provisional list, and they can do so by sending an email to the following e-mail address: recruitment.research@unavarra.es
